

**Mrs Connell delivered sunflower seeds to all the Y2 children. Here's what happened:**

**Scarlett- Class 9**

Message from Scarlett's mum

Our secret to growing sunflowers is to start early! These have been growing since start of lockdown. We have been growing kale, spinach and herbs. Both girls have really enjoyed going out and watering them every day! We are excited to measure them too. Scarlett did say our secret is plenty of sunshine and water!

**Logan- class 9**

Logan had fun planting his sunflower seed.

**Mariah- class 8**

I've painted tyres for flower pots and planted loads of flowers.

My favourite Julia Donaldson book is going to be the Highway Rat.

My seeds have grown because I water them a little bit every day and also when I first planted them I put plastic bags over the pots and after couple of days and I then took them off and put them on my table in the sunshine.

**Erin - class 9**

I've been checking on my sun flower every day, it hasn't popped out of the soil yet. It could have some roots growing maybe?

**Haris- class 9**

To Mrs Connell

I have planted my seed!

From Haris.

**Elijah Grant - class 8**

I have also sent you my sunflower as its really starting to grow!
